## PROFESSIONAL SUMMARY

Certified Cybersecurity aspirant with hands-on expertise in vulnerability assessment, network traffic analysis, and SIEM monitoring, seeking an entry-level SOC / Network Security Analyst role.

## TECHNICAL SKILLS

**Cybersecurity & Networking:** Network Security, TCP/IP, DNS, HTTP/HTTPS, SOC Fundamentals, Vulnerability Assessment, Network Reconnaissance, Packet Analysis

**Tools:** Kali Linux, Wireshark, Nmap, Metasploit, Splunk (Learning), Wazuh SIEM, Zeek IDS, VirtualBox, Git/GitHub

**Languages & OS:** Python, SQL, Bash (Shell Scripting), Windows, Linux (Ubuntu, Kali)

## PROJECTS

### Wazuh SIEM + Zeek IDS + SOAR Automation

Deployed Wazuh SIEM integrated with Zeek IDS for real-time network traffic monitoring and security event detection.

- Built SOAR automation playbooks to auto-triage alerts, significantly reducing manual response time.
- Correlated logs across endpoints to identify multi-stage attack patterns and minimize false positives.

### Honeypot + Threat Detection with Wazuh

- Deployed an isolated honeypot to capture live attacker activity and integrated logs with Wazuh for real-time alerts.
- Analyzed attack patterns to document attacker tactics, techniques, and procedures (TTPs).

### Vulnerability Assessment & Remediation (Metasploitable2)

- Performed VA on Metasploitable2 using Nmap and Metasploit; identified and validated 10+ exploitable CVEs.
- Conducted CVE analysis to prioritize flaws by severity and documented professional remediation steps.

### Network Scanning & Traffic Analysis (Nmap & Wireshark)

- Scanned 20+ hosts using Nmap to systematically map the network attack surface and discover active services.
- Analyzed 100+ packets of TCP/IP, DNS, and HTTP traffic in Wireshark using custom filters to isolate anomalies.

### Linux Shell Scripting Automation

Developed 4 Bash scripts (File Integrity Checker, System Health Monitor, IP Finder) to automate routine admin tasks.

## EDUCATION

**Master of Computer Applications (MCA) - IGNOU (Distance)** 2026–Pursuing

**Bachelor of Computer Applications (BCA) - MDU / Shikshapeeth College (CGPA: 6.3)** 2023–2026

**Class XII (Senior Secondary) - CBSE Board (Percentage: 86%)** 2023

## CERTIFICATIONS & LABS

- **SOC Analyst Level 1 & 2 Masterclass** - Selfcode, Udemy (July 2026)
- **Google Cybersecurity Professional Certificate**
- **Cisco Networking Academy:** Introduction to Cybersecurity | Networking Basics | Introduction to Packet Tracer
- **TryHackMe:** Completed 15+ labs covering Linux, networking, reconnaissance, and penetration testing fundamentals.

## ADDITIONAL INFORMATION

**Relevant Coursework:** Network Security, Operating Systems, Linux Administration, DBMS (SQL), Cryptography
